Education

-
- | | |
|---|-----------------------------|
| Delhi Technological University <i>B.Tech in Production Engineering</i> | <i>Sept 2023 – May 2027</i> |
| ◦ Score: 8.25/10 | |
| Panchsheel Balak Inter College <i>Class XII</i> | <i>2022</i> |
| ◦ Score: 91.08% | |

Experience

-
- | | |
|--|---|
| Frontend Intern <i>TechStart</i> | <i>Delhi, India Oct 2024 – Dec 2024</i> |
| ◦ Engineered responsive landing pages using React and Tailwind CSS, optimizing SEO scores and web performance by 20%. | |
| ◦ Collaborated with the development team to translate UI/UX designs into pixel-perfect, interactive web components. | |
| ◦ Streamlined frontend workflows by implementing reusable component libraries, reducing development time for future features. | |
| Flutter Developer <i>Freelance</i> | <i>Delhi, India Jan 2025 – Mar 2025</i> |
| ◦ Architected a dynamic Sudoku puzzle application using Dart and Flutter, implementing complex recursive algorithms for grid generation. | |
| ◦ Managed the full software development lifecycle (SDLC), from initial coding to publishing on the Google Play Store. | |
| ◦ Successfully achieved 500+ active downloads through performance optimization and intuitive UI design. | |

Projects

-
- | | |
|--|---|
| Kevenca Clone | <i>github.com/thearyanpandey/kevenca-clone</i> |
| ◦ Developed a high-fidelity web application clone using React and TypeScript to ensure type safety and code scalability. | |
| ◦ Implemented Lazy Loading and code-splitting techniques to enhance page load speed and improve user retention. | |
| Apple TV UI Re-creation | <i>github.com/thearyanpandey/apple-tv-clone</i> |
| ◦ Developed an immersive landing page utilizing GSAP for complex scroll-triggered animations and fluid transitions. | |
| ◦ Optimized cross-browser compatibility and responsive design to ensure a seamless experience across desktop and mobile devices. | |
