Education

Delhi Technological University <i>B.Tech in Production Engineering</i>	<i>Sept 2023 – May 2027</i>
◦ Score: 8.25/10	
Panchsheel Balak Inter College <i>Class XII</i>	<i>2022</i>
◦ Score: 91.08%	

Experience

Frontend Intern <i>TechStart</i>	<i>Delhi, India Oct 2024 – Dec 2024</i>
◦ Engineered responsive landing pages using React and Tailwind CSS, ensuring cross-browser compatibility and mobile-first design. ◦ Optimized SEO performance and accessibility scores by 20% through semantic HTML restructuring and metadata enhancement. ◦ Collaborated with the development team to integrate REST APIs using Axios, streamlining data flow between front-end and back-end.	
Flutter Developer <i>Freelance</i>	<i>Delhi, India Jan 2025 – Mar 2025</i>
◦ Developed and published a high-performance Sudoku puzzle application to the Google Play Store, achieving 500+ downloads. ◦ Implemented dynamic grid generation algorithms and complex state management logic using Dart and Flutter. ◦ Managed the full software development lifecycle (SDLC), including UI/UX design, debugging, and production deployment.	

Projects

Kevenca Web Clone	<i>github.com/thearyanpandey</i>
◦ Built a pixel-perfect web application clone using TypeScript and React to demonstrate mastery of modern CSS-in-JS and layouts. ◦ Optimized web performance by implementing Lazy Loading and code-splitting, reducing initial bundle size by 15%. ◦ Utilized GSAP and Tailwind transitions to create a premium, interactive user experience consistent with the original platform.	
Apple TV UI Architecture	<i>github.com/thearyanpandey</i>
◦ Recreated high-fidelity Apple TV animations using GSAP (GreenSock Animation Platform) for smooth, cinematic transitions. ◦ Architected a scalable component hierarchy in React, emphasizing reusable UI elements and maintainable CSS structures. ◦ Integrated advanced JavaScript ES6+ features to handle complex UI states and asynchronous interaction events.	

Technologies

Languages: JavaScript (ES6+), HTML5, CSS3, Java, Dart
Frameworks: React, Express, Flutter, Tailwind CSS, GSAP
Tools: Git, Postman (API Testing), Node.js, Android Studio, Firebase
