Education

Delhi Technological University *B.Tech in Production Engineering* *Sept 2023 – May 2027*
◦ Score: 8.25/10
Panchsheel Balak Inter College *Class XII* *2022*
◦ Score: 91.08%

Experience

Frontend Development Intern *TechStart* *Delhi, India Oct 2024 – Dec 2024*
◦ Engineered responsive and high-performance landing pages using React and Tailwind CSS, directly aligning with core front-end requirements.
◦ Optimized SEO scores and web accessibility by 20% through strategic semantic HTML structure and asset optimization.
◦ Collaborated with the development team to debug front-end components and ensure seamless UI/UX transitions across different device viewports.

Software Development Freelancer *Freelance* *Delhi, India Jan 2025 – Mar 2025*
◦ Architected a cross-platform Sudoku puzzle application using Dart and Flutter, focusing on clean code and efficient state management.
◦ Developed complex dynamic grid generation and recursive backtracking algorithms for real-time difficulty adjustment.
◦ Managed the full software development lifecycle (SDLC), successfully publishing the application to the Play Store and achieving over 500 organic downloads.

Projects

Kevenca Web Platform Clone *github.com/thearyanpandey/repo*
◦ Developed a pixel-perfect clone of the Kevenca landing page utilizing React and TypeScript to ensure type safety and code scalability.
◦ Implemented advanced optimization techniques including Lazy Loading and code splitting to significantly reduce initial bundle size and improve load times.

Apple TV Animated Interface *github.com/thearyanpandey/repo*
◦ Engineered high-fidelity web animations and smooth transitions using GSAP and React to mirror premium streaming platform experiences.
◦ Prioritized cross-browser compatibility and responsive design principles to ensure consistent visual performance across desktop and mobile devices.

Technologies

Languages: JavaScript (ES6+), HTML5, CSS3, Java, Dart
Frameworks: React, Node.js, Express.js, Flutter, Tailwind CSS
Tools: Git, GitHub, Postman (API Testing), RESTful APIs, Android Studio
